Section 18: Competitive Grants

The ARRA provided a high level of funding for federal agencies to increase existing competitive grant programs or to establish new competitive grants. Most of these Funding Opportunity Announcements (FOAs) are listed on www.grants.gov. However, due to the volume of grants available in this category, some grant information is listed only on an agency Web site, the Federal Register or www.fedconnect.net.

As part of the OERI's transparency and accountability mission, we have created a Webpage listing all current ARRA-funded federal FOAs. This document lists and is sortable by relevant information regarding grants, including title, funding information and grant eligibility requirements. The document is available on the front page of www.ncrecovery.gov and is updated weekly. Notice of updates is sent out via rss feed and to local governments via listserv.

Attached is an example of the Competitive Grants Website. The current document was updated on October 23, 2009 and is current for the third week in October. "New" grants are designated only for the first week they are listed. Grants are removed after the application period is closed.
